

P. A. puts new joy into the sport of smoking!

You may live to be 110 and never feel old enough to vote, but it's certain—sure you'll not know the joy and contentment of a friendly old jimmy pipe or a hand rolled cigarette unless you get on talking-terms with Prince Albert tobacco!

P. A. comes to you with a *real reason* for all the goodness and satisfaction it offers. It is made by a patented process that removes *bite and parch*! You can smoke it long and hard without a come-back! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

Prince Albert affords the keenest pipe and cigarette enjoyment! And that flavor and fragrance and coolness is as good as that sounds. P. A. just answers the universal demand for tobacco without bite, parch or kick-back!

Introduction to Prince Albert isn't any harder than to walk into the nearest place that sells tobacco and ask for "a supply of P. A." You pay out a little change, to be sure, but it's the cheer-fullest investment you ever made!

PRINCE the national joy smoke ALBERT

SEVERE PUNISHMENT Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell."

I tried most every kind of medicine, but none did me any good. I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it. Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlasting tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

LUKE M'LUKE SAYS:

What has become of the old-fashioned woman who used to tear up a newspaper and use it to put her hair up in curls?

We know a lot of Hypocrites who are too pious to sell themselves to the Devil, but who do not object to renting themselves out by the day.

A man believes that all men are alike and all women different. A woman believes that all women are alike and all men different.

After the Bride's bouquet fades and withers, she doesn't realize that she won't get another armful of roses until they lay her out.

We all love the old-fashioned liar who tells you that "me and the old woman never had any trouble. I do what I want to, and she does what she wants to."

Maybe you didn't know it, but there were mighty few divorces in the old days before Alimony was invented. The lad who sleeps with his gloves on to keep his hands soft doesn't have to bother about sleeping with his hat on.

Class is great stuff. You can put a thousand dollars' worth of glad rags on a ten-cent woman and she will continue to look like a ten-cent woman.

Mother may forget to frisk Father's clothes for six months. But she never fails to frisk them the night one of Father's fool friends puts a photograph of a real September Morn in one of Father's pockets.

You can't convince a man that a Doctor who prescribes a little Whisky with the medicine isn't a good Doctor.

After all, the only sure way to make people take your advice and follow it is to charge them a dollar a word for it.—Cincinnati Enquirer.

How Machines do Our Shorthand, Our Bookkeeping, Our Adding, Our Typing, Our Talking,

No hand work can be as accurate as Machine Work. Our Shorthand Machine—the Stenotype prints shorthand in just the same letters you learned when you were six years old. No hieroglyphics—just plain A, B, C's, which anyone can read.

Have you seen it? Well you have something of interest still to see. Make your mind up to look into this little device to-day. It will pay you to do it.

Don't stand still. Don't go backwards. Remember what you said about the Adding Machine, a few years ago.

Write us about your wishes, your ambitions. You will not be the first boy or girl, by many hundreds we have helped solve the problem of "How to make a living."

Are you thinking of training for a profession or a trade?

We used to say "The quickest way to success in any profession is learning Shorthand." We still say so, but by all means learn it the "Machine Way."

Our School has added Shorthand Machines just as we added, years ago, Typewriters, Adding Machines, Mimeographs, (And we have not forgotten to keep them MODERN), etc., because the Public demands new and up-to-date facilities for making the busy man's work easy.

Modern Bookkeeping is very little like what it was thirty years ago.

WE KEEP ABREAST THE TIMES.
